SCOPE AND CONTENT NOTE

The first Armored Division was activated in July 1940 and participated in the invasion of North Africa in November 1942. It later fought in Tunisia, Sicily and Italy. After the end of the war the Division was on occupation duty in Germany until it returned to the U.S. in April 1946.

During their many months of combat duty, the organic units and staff sections which comprised the Division prepared extensive reports which described their activities. The original copies of these reports were sent to the War Department where they became part of the files of the Adjutant General's Office. The Departmental Records Branch of the Adjutant General's Office. The Departmental Records Branch of the Adjutant General's Office developed an elaborate arrangement scheme by which the records were organized.

When the after action reports were transferred to the National Archives, the Archives staff found that portions of the reports had been microfilmed by the War Department in 1948. A copy of the film of the records of the 1st Armored Division was sent to the Eisenhower Library by the Archives in April 1964. It is not known if the film contains the complete records of the Division. Records of some elements, particularly the general staff sections, are very fragmentary, and it is possible that additional records of the Division exist at the National Archives which are not on this microfilm.

Paper copies of many items are also at the Eisenhower Library as part of the U.S. Army Unit Records collection. These items appear to be carbon copies of the after action reports which the Division staff retained among their office files in the field. Researchers should examine both sets of files to obtain as complete a record as possible of the activities of the Division.
