MATERIAL AT THE LBJ LIBRARY PERTAINING TO
DWIGHT D. EISENHOWER

INTRODUCTION

This list includes the principal files in the Johnson Library containing materials on Dwight D. Eisenhower. It is not definitive, however, and researchers should consult with an archivist about other potentially useful files. The list includes collections that have been opened for research in whole or in part and those that are currently unprocessed or unavailable. Material not yet available for research is listed with an asterisk (*).

HOUSE OF REPRESENTATIVES PAPERS, 1937-1949

The papers reflect Johnson's role as Congressman from the Tenth Congressional District of Texas in the United States House of Representatives.

SENATE PAPERS, 1949-1961

Researchers may request review of individual folders not previously opened. Advance notice is preferred. These files reflect Johnson's role as Senator from Texas and as Democratic Party leader.

SENATE MASTERS, 1953-1960

This index, set up on March 23, 1953, is a "master file" consisting of extra copies of outgoing correspondence and interoffice memoranda stamped or annotated with file classifications. The "master file" copies were prepared chiefly for the Texas office mail, but also include copies of some Senate Policy Committee and Preparedness Subcommittee correspondence, some campaign correspondence, and a few of Mrs. Johnson's letters.

WHITE HOUSE CENTRAL FILES (WHCF)

This permanent White House office was the main filing unit during the Johnson presidency, although not the primary file for foreign policy documents. Material was filed under 60 major subject headings. For descriptions of the various subject headings, see the finding aid for the WHCF, Subject File.

WHCF, NAME FILE

This file serves as a name index to the Subject File. Name Files, in general, contain copies of the first page of a document (used as cross-references) in the Subject File. Please request Name Files by the name of an individual person or organization. There is a card file in the Reading Room listing those Name Files already available for research.

WHCF, CONFIDENTIAL FILE (CF)

Arranged in the same subject categories as the WHCF Subject File, this file contains material that was security classified or otherwise sensitive. The CF Name File serves as a name index to the CF Subject File. This collection also includes agency reports and oversize attachments. The CF has been processed, but some documents remain classified.

OFFICE FILES OF THE WHITE HOUSE AIDES

Many White House aides maintained office files of their own, physically separate from the rest of the White House Central Files. The files of each aide reflect his or her responsibilities. This list is not definitive, but it does include most pertinent folder titles. Folders not currently available for research will be processed upon request, but researchers should expect a delay. Please consult the finding aids for more detailed information on White House aides and their files.

NATIONAL SECURITY FILE (NSF), 1963-1969

The National Security File (NSF) was the working file of President Johnson's special assistants for national security affairs, McGeorge Bundy and Walt Rostow. Documents in the NSF originated in the offices of Bundy and Rostow and their staffs, in the various executive departments and agencies, especially those concerning foreign affairs and national defense, and in diplomatic and military posts around the world. Consult the finding aid in the Reading Room or borrow a lending copy by writing to the Interlibrary Loan Archivist, LBJ Library, 2313 Red River Street, Austin, Texas 78705. Folders listed in the finding aid with titles preceded by an "X" or a date have been processed and their contents declassified in whole or in part. Withdrawal sheets listing documents still classified have been placed in those folders, and researchers may request mandatory review of individual documents which have not yet been declassified in full. Folders not preceded by an "X" or a date are unprocessed and are not subject to mandatory declassification review. Consult with a member of the staff about the processing schedule.

DIARIES AND APPOINTMENT LOGS

The Diary Cards in the Reading Room provide an alphabetically arranged name index to the President's appointments. Once the date of an appointment has been determined, check the "Diaries and Logs" finding aid for the numbers of the appropriate boxes in both the Daily Diary and the President's Appointment File (Diary Backup). The Daily Diary is a log sheet of appointments and phone calls maintained by the White House secretaries. The Diary Backup contains preparation material, press releases, and schedules for meetings and appointments, as well as some reports and notes from the meetings.

RECORDINGS AND TRANSCRIPTS OF TELEPHONE CONVERSATIONS

The Johnson Library staff is currently processing the recordings and transcripts of President Johnson's telephone conversations. The collection includes over 5,000 recordings of conversations with members of Congress, other public officials, civil rights leaders, members of the press, friends, and family.

JFK assassination-related recordings and transcripts identified by the Library staff from four periods during the administration were opened in increments from September 30, 1993, through April 15, 1994 (please consult the finding aid for that collection for further information). The JFK Assassination Records Collection, located at the National Archives at College Park, 8601 Adelphi Road, College Park, Maryland 20740, has copies of these recordings and transcripts. On October 11, 1996, the Library opened conversations recorded in January through March of 1964 and will open chronological increments of the collection periodically. The unprocessed portion of the collection may include conversations of interest to you which are not included on this guide. If you wish to be notified when additional recordings and transcripts are released, please contact the Library.

Many of the recordings were **NOT TRANSCRIBED**. The transcripts that were made were prepared in the White House and during the drafting of the President's memoirs, The Vantage Point, published in 1971. Researchers should be cautioned that these transcripts are not always reliable and should never be used without checking them against the actual recordings to assure accuracy.
